Work Experience

Business System Consultant, CIBC

March 2014- Present

Toronto, ON

Business System Consultant reporting to Director in Technology Operations department. Main responsibility is to assess impacts to current lending systems, and integration points and work with business team to provide business blueprints for development/QA team to make technical changes to systems.

MAIN ACCOMPLISHMENTS

- Play key role on implementation of new CIBC products into current system architecture
- Developed nonfunctional requirements of system as guideline to be used by development team
- Lead business representative for development cycle for large development and testing team

Business Analyst, Accenture Inc.

April 2012- March 2014

Toronto, ON

Business Analyst reporting to Project Lead on business transformation projects with several large corporations. Main responsibility was to lead client discussions with key stakeholders to develop system requirements

MAIN ACCOMPLISHMENTS

- Led requirements workshop presentations for Core Adjudication work stream with over 30 key stakeholders and 15+ meeting participants from client teams on large lending transformation project
- Developed end to end credit adjudication process for large banking client with approval from Risk, Secured Lending, Marketing, Front Line, Technology and UI teams
- Developed limit allocation model which was used in credit adjudication process
- Developed system to system interface (SSI) documentation for lending transformation project

Business Analyst, PharmaTrust

October 2010- April 2012

Oakville, Ontario

Business Analyst as part of finance department reporting to controller. I played a major role in the ERP implementation moving from Simply Accounting to Epicor.

MAIN ACCOMPLISHMENTS

- Played key role in implementation of ERP system (Epicor) into business processes which increased efficiency in the invoice flow process and coordination between the departments.

- Developed and executed streamlined invoice flow and payment process that led to a 30% reduction in processing time and increases in accuracy for offices in Oakville, Chicago, Illinois and London, UK
- Developed monthly and year end close process to be used by finance department
